

## DEPARTMENT OF ZOOLOGY BROCHURE

A students Seminar on

"Mitigating environmental pollution: Strategies and innovations for a sustainable future"

And other events

Date- 18/11/2021

Venue-Derabis Degree College, Derabish, Kendrapara.

### About the College:

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a college in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals. Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

### Mission and Vision

- To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.
- To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.
- To imbibe scientific temperament with human values in the minds, for the upliftment of men and women.
- To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the National mainstream.
- The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

  
Principal  
DERABISH COLLEGE

The objective of the Seminar is likely:

1. To analyze current environmental pollution challenges and their impacts on ecosystems and human health, highlighting the need for sustainable solutions.
2. To explore innovative strategies and technologies for reducing pollutions, promoting sustainable practices and achieving long term environmental sustainability.

**Chairperson- Dr. Debabrata Nayak, reader in Botany (Principal)**

**Guest- Mr. Aswini Kumar Prusty, reader in Physics**

**Convener- Mr. Ardhendu Sekhar Mallick (HOD)**

**Organizing Committee – Mr. Ardhendu Sekhar Mallick**

**Contact Person- Mr. Ardhendu Sekhar Mallick (Mob- 7978611943)**

**Email-Id- derabishcollege@gmail.com**

## Seminar Report

**01- Title:** "Mitigating environmental pollution: Strategies and innovations for a sustainable future"

**02- Organizer-** Department of Zoology  
Derabis College  
Derabish, Kendrapara

**03- Date-** 18/11/2021

**04- Venue-** Hall No- 14

Derabis College, Derabish

**05- Brief introduction about the guests:**

Dr. Debabrata Nayak, Reader in Botany, principal, Derabis College, Derabish

Mr. Aswini Kumar Prusty, Reader in Physics, Derabis College, Derabish

### Report on Seminar

A Departmental seminar on "Mitigating environmental pollution: Strategies and innovations for a sustainable future" was organized by the Department of Zoology, Derabis College Derabis on 18/11/2021 in Hall No-14. Dr. Debabrata Nayak, Reader in Botany and esteemed principal of Derabis College was the chief guest of the seminar. He has discussed about various forms of pollution (air, water, soil, noise, plastic pollution) and their impacts on ecosystems and human health. He also highlighted the urgent need for sustainable solutions to combat these challenges. Another guest Mr. Aswini Kumar Prusty, Reader in Physics discusses the latest advancements in pollution control technologies such as clean energy solutions, wastewater management, organic farming, and integrated pest management to reduce soil and water pollution. The seminar was presided over by Dr. Debabrata Nayak, Principal, of Derabis college, Derabis. Mr. Ardhendu Sekhar Mallick, Head of the department spoke about the relevance of conducting a seminar on such a novel topic and addressed the implementation challenges of sustainable practices. Later the students of zoology honours presented their seminar talk on the severity of global pollution and its detrimental effects on biodiversity and human well-being. At the end, the co-organizer of the seminar proposed a vote of thanks to the gathering. The seminar has well informed the students the staff and faculty members of the college in many ways.

  
Principal  
DERABISH COLLEGE

**Abstract**

The seminar on "Mitigating environmental pollution: Strategies and innovations for a sustainable future" will explore innovative approaches to reducing pollution and promoting sustainability. It will cover key strategies such as advancing renewable energy technologies, enhancing waste management practices, and promoting sustainable agricultural methods. The seminar will also emphasize the importance of policy-making, co-operative responsibility, and community engagement in driving environmental initiatives. Participants will gain insights into the latest research, successful case studies, and practical solutions for minimizing the environmental footprint. Through collaborative discussions, the seminar aims to foster a multidisciplinary understanding of pollution mitigation, encouraging the adoption of holistic and sustainable practices. Ultimately, this event seeks to inspire the students to commit to actionable steps that ensure a healthier planet for future generations.

Meeting -

## Seminar Resolution

DT- 11/11/2021

A seminar meeting of zoology department was held on DT- 11/11/21 in the office of principal, Dr. Debabrata Nayak, Principal, Derabhis College, provided over the meeting in the presence of Dept. Staffs and students. The following decisions were taken unanimously.

- (1) It was decided to organize a seminar on 18/11/21 at 11 am in Hall No. -14 positively.
- (2) Title of the seminar -  
"Mitigating environmental pollution strategies and innovations for a sustainable future."
- (3) Mr. Anshuman Lakhan Mallick, H.O.D Zoology shall act as Co-ordinator of the seminar and authorized to withdraw the needed amount after the submission of the vouchers.
- (4) In the end, principal extended vote of thanks to the members present and declared the meeting over.

## SEMINAR REPORT

### Brief Report on the Event :

A Seminar on "Cyanobacteria : The wonder of Nature" was organised by the Department of Botany. Dr. Sagarika Parida delivered the talk as resource person. Many Proterozoic oil deposits are attributed to the activity of Cyanobacteria. They are also important providers of nitrogen fertilizer in the cultivation of rice and beans. The Cyanobacteria have also been tremendously important in shaping the course of evolution and ecological change throughout earth's history.

The Seminar was presided over by Dr. Debabrata Nayak, Principal, the HOD of the Department spoke upon the relevance of conducting seminar on such a prominent topic.

At the end Mr. Sourav Chand, Lecture in Botany proposed vote of thanks to the gathering. The Seminar has benefitted the students, staffs and faculty members of the college in many ways.

## A Brief Review on Potential Applications of Cyanobacteria

### The Wonder of Nature

*Dr. Anamika Ghosh, Microbial Genomics, University of Calicut, India, & T. S. Sankaranarayanan, Department of Biotechnology, Anna University, Chennai, India.*

#### Abstract

The cyanobacteria (BGA) are a group of gram-negative, photosynthetic prokaryotes which found in all kinds of habitats and originated on Earth about 2.5 to 3.5 billion year ago in Pre-Cambrian Era. Basically, they are best known for causing water pollution and atmospheric nitrogen fixation but recently they have been considered as most promising group of micro-organisms having a wide range of potential applications in various fields. A lot of biologically active and chemically diverse metabolites such as peptides, lipopeptides, fatty acids, amides, alkaloids, saccharides etc., have been isolated and identified from various species of cyanobacteria. In this review we present an overview of literature to explore pharmacological, toxicological and other potential applications of Cyanobacteria. Cyanobacteria are rich source of bioactive compounds with antibacterial, antifungal, antialgal, antiviral, antiprotozoal, anticancer etc. properties. Several species of Cyanobacteria have ability to accumulate the polyhydroxyalkanoates which may be used as bioplastics. In addition to these applications the Cyanobacteria are also useful in agricultural practices as biofertilizers, bioremediation of wastewater, as food supplements and also in the production of hydrogen fuel, enzymes such as protease inhibitors and neurotoxic membrane channel regulators and odorous compounds.

**Keywords:** Cyanobacteria, Bioactive Metabolites, Antimicrobial, Biofertilizers.

#### **Introduction**

The cyanobacteria are a large and morphologically diverse group of prokaryotic micro-organisms, and are cosmopolitan in distribution on entire Earth (Whitton, 1973). Thajuddin and Subramanian (2005) estimated that cyanobacteria contribute approximate 15% of the total algal flora in the tropical regions and about 2% in the temperate regions. They are found as photoautotrophs, photoheterotrophs,

### **About the place (Kendrapara):**

**Kendrapara District** is an administrative district Odisha state in eastern India. The town of Kendrapara is the district headquarters. **Derabis College** is just 7 kilometers from Kendrapara town.,Kendrapara District is well known as the Tulasi Khetra. Epics unveil the fact that Lord Balram killed Kandrāsura here. Then he married his daughter Tulasi and settled here. Since then the place is known as Kendrapara.

The objective of the Seminar is likely:

- 1.To enable quantum cryptography, superdense coding, may be faster than light speed communication and even teleportation.
2. To understand importance of quantum entanglement in transmitting quantum information.

3- Rajalaxmi Singh  
4- Bishanpriya Singh
5. No of Students Present- 25
6. Abstract of the paper-

Quantum entanglement, a phenomenon famously described as Einstein as "spooky action at a distance," continues to captivate physicists and philosophers alike. This abstract concept, rooted in the principles of quantum mechanics, challenges our conventional understanding of reality and has far reaching implications for fields ranging from quantum computing to fundamental questions. We delve into the mysteries of quantum entanglement, exploring its theoretical underpinnings, experimental verifications and potential applications. We discuss the role of entanglement in quantum teleportation, quantum cryptography and quantum computing. While also considering its philosophical implications for concepts such as locality and causality. By fostering a deeper understanding of quantum entanglement, we aim to unravel the complexities of the quantum world and contemplate its profound implications for our understanding of reality.

# DEPARTMENT OF PHYSICS BROCHURE

## A Seminar on "Electronic Toll Collection" And other events

Date- 22/3/2022

Venue- Derabis Degree College, Derabish, Kendrapara.

### About the College:

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a College in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals. Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

### Mission and Vision

To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.

To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.

To imbibe scientific temperament with human values in the minds, for the upliftment of men and women.

To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the National mainstream.

The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

### **About the place (Kendrapara):**

**Kendrapara District** is an administrative district Odisha state in eastern India. The town of Kendrapara is the district headquarters. **Derabis College** is just 7 kilometers from Kendrapara town.,Kendrapara District is well known as the Tulasi Khetra. **Epics unveil** the fact that Lord Balram killed Kandraura here. Then he married his daughter Tulasi and settled here. Since then the place is known as Kendrapara.

The objective of the Seminar is likely:

1. To make toll collection more efficient and reduce traffic congestion compared to existing manual systems.
2. To collect data on vehicle movements and traffic patterns.

**Chairperson-** Dr. Debabrata Nayak

**Convener-** Mr. Aswini Kumar Prusty

**Resource Person-** Ipsita Samal (Sr. Lecturer in Electronics and Telecommunication, Nigam College of Engineering and Technology, Bhubaneswar)

**Organizing Committee-** Mr. Abhijit Pradhan , Mr. Sarat Chandra Rout

**Email-Id-** derabiscollge@gmail.com

Seminar Resolution

19

Meeting - 25

28.02.2022

A meeting of the Dept. of physics was held on date 28/02/2022 at 11AM in the principal office. Dr. Debabrata Nayak, principal Presided over the meeting in the presence of department staffs and student representative regarding organisation of a seminar and the following decisions were taken unanimously.

01. It is decided to organise a seminar on 22/03/2022 at 10:30 AM in Hall 14 positively.
02. It is decided to request Prof. Ipsita Samal, NIGAM Institute of Engineering and Technology, BBSR, Odisha to attend as Resource Person.
03. It is decided the Topic of the seminar will be "Electronic Toll Collection".
04. It is also decided Mr. Aswini Kumar Prusty, Reader in physics shall be convenor of the seminar. Students are advised to Co-operate for the success of the seminar.
05. In the end, Principal extended vote of thanks to the members presents and declared the meeting over.

Date. 15.03.2022

To,

Prof. Ipsita Samal  
NIGAM Institution of Engineering & Technology  
Bhubaneswar, Odisha

Sir /Madam,

Department of physics of our college is going to organize a seminar on "Electronic Toll Collection" on Date:-22/03/2022 at 10.30 am.

So you are requested to attend the seminar as a Resource person to grace the Occasion.

With regards.

# Seminar-Report

Name of the Department - PHYSICS

1. Seminar held on- 22.03.2022
2. Name of the topic- Electronic Toll Collection
3. Name of the resource person- Prof. Iprita Samal
4. Name / No of the students present the paper-
  1. Sangram Padhi
  2. Prakash Ku. Malik
  3. Silpa Das
  4. Barsha Sutar
  5. Aizurya Swain
  6. Silpa Suman Sahu
5. No of the students presents- 80
6. Abstract of the paper-

Electronic toll collection (ETC) revolutionizes transportation infrastructure by streamlining toll payment processes through automated, electronic means. Traditionally, toll collection relied on manual methods, causing congestion, delays, and environmental pollution. ETC systems eliminate the need for toll booths, allowing vehicles to pass seamlessly through toll plazas without stopping, thereby improving traffic flow and reducing carbon emissions.

ETC systems employ various technologies, including radio-frequency identification (RFID), dedicated short-range communication (DSRC), and automatic number plate recognition (ANPR). RFID tags or transponders installed in vehicles communicate with sensors or gantries positioned at toll collection points, enabling swift and accurate toll payment transactions. Alternatively, ANPR systems capture vehicle license plate information, associating it with registered accounts for toll payment processing.

The benefits of ETC extend beyond traffic efficiency and environmental sustainability. By reducing traffic congestion and travel times, ETC enhances road safety and reduces fuel consumption and vehicle emissions. Moreover, ETC systems streamline toll administration, minimizing operational costs and improving revenue collection accuracy for transportation authorities.

The widespread adoption of ETC systems has spurred interoperability initiatives, aiming to enable seamless toll payment across different regions and transportation networks. Interoperable ETC systems allow travelers to use a single transponder or account for toll payments, regardless of the toll road or agency, enhancing convenience and promoting interregional connectivity.

While ETC offers numerous advantages, challenges such as privacy concerns, cybersecurity risks, and equitable access must be addressed. Ensuring data protection and privacy safeguards, implementing robust cybersecurity measures, and designing inclusive systems are critical for the sustainable advancement of electronic toll collection.

In conclusion, electronic toll collection represents a transformative advancement in transportation management, offering myriad benefits including enhanced traffic flow, environmental sustainability, and operational efficiency. Addressing associated challenges is essential to realizing the full potential of ETC in shaping the future of mobility.

## BROCHURE

## A SEMINAR ON

## "STATE AND CITIZENSHIP IN INDIAN CONTEXT"

Date: 13.04.2022

Venue-Derabis Degree College, Derabish, Kendrapara.

**About the College:**

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a college in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals. Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

**Mission and Vision**

- To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.
- To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.
- To imbibe scientific temperament with human values in the minds, for the upliftment of men and women.
- To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the National mainstream.
- The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

**The objective of the Seminar is likely:**

1. To discuss about the relationship between state and citizenship in Indian Context
2. To explore the role of state in the matter of Citizenship.

Seminar Report:

Date: 13.04.2022

A Department level Seminar was organised in the department. of Pol.Sc on DT. 13.04.2022 at 11.00 A.M.

Topic of the Seminar: " State and Citizenship in Indian Context ".

Inauguration of the Seminar by Dr. Debabrata Nayak, The Hon'ble Principal of the Derabis College, Derabish

Coordinator of the Seminar: Santanu Kumar Mati, HOD, Pol.Sc.

Resource Person of the Event: Dr. Chinmaya Kumar Pradhan, Lect.in Pol.Sc, Brahman I College, Dandisahi, Kendrapara .

The seminar was inaugurated by the chief guest Dr. Debabrata Nayak, Principal of the college. Welcome address delivered by Mr. Santanu Kumar Mati, HOD. of Department of Pol.Sc. Then the resource perperson Dr. Chinmaya Kumar Pradhan delivered his speech on the topic. He put his ideas and thoughts in a very lucid language giving examples of citizenship in different countries of the world. He also told the students the meaning of citizen, acquisition of citizenship in Indian context. He told citizens should be real educated to express their loyalties towards the country. He discussed elaborately rights of citizens. Rights are essential for the development of the personality. The chief guest, our beloved principal put his views before the students. Mr. Loknath Giri, Lect.in Eng described good symptoms of citizens in his valuable speech. Mr. Santanu Kumar Mati, Mr. Brundaban Das, and Dr. Sandeep Kumar Bal presented their papers on the topic. Smrutiranjana Pradhan, +3 IInd year, Bishnupriya Das, +3 IInd year, Madhusmita Kar, +3 Its year students participated in discussion.

The Seminar was over with the vote of thanks by Sandeep Bal to the members present.

  
Principal 13.04.22

Derabis College, Derabish  
DERABISH COLLEGE

Department of Political Science

Topic of the Seminar: " State and Citizenship in Indian Context".

Date: 13.04.2022

ABSTRACT

-----

Citizenship is the status of a person recognised under law as being a legal member of a sovereign state belonging to a nation. State approves it. Citizenship is natural and, in some cases, it is acquired. Article 5-11 of the constitution deals with the concept of citizenship. Indian citizenship can be acquired by birth, descent, registration and naturalization. Article 5 states citizenship is granted to all persons who are born and raised in India. Even people who were domiciled in India but not born there, yet had one of their parents born were considered citizens. A citizen is a participatory member of a political community. Citizenship is gained by meeting the legal requirements of a national, state or local Govt. A nation grants certain rights and privileges to its citizens.

# Resolution No. 05

Dated 09.04.22

- Members Present
- 1) Santanu Kumar Maiti
  - 2) Braundabehn Das
  - 3) Sandeep Bal

A meeting of Dept. of Pol. Sc was held today on dt 09/04/2022 at 10.00 AM under the Chairmanship of Mr. Santanu Kumar Maiti, HOD of Pol. Sc to have a discussion about the arrangement of a dept. level Seminar and the decisions taken unanimously as follows :-

That,

- 1) The date of Seminar was decided to be held on dt. 13/04/22
- 2) All the members resolved the topic "State and Citizenship in Indian Context" to be discussed in the seminar
- 3) It was resolved to invite Dr. Chinmaya Kumar Pradhan, Lect. in Pol. Sc, Brahmuni College, Dendurahi, Kendrapara to act as the Resource person,
- 4) Dr. Debabrat Nayak, Principal and Mr. Loknath Girci, Sr. Lect. in Eng. of this College were requested to act as Chief guest and guest of honour respectively to grace the occasion.

The meeting was over with vote of thanks by Sandeep Bal, Lect. in Pol. Sc to the members present

**A SEMINAR ON**

**ROLE OF TEACHER EDUCATION AT SECONDARY LEVEL**

**Date- 16.04 2022**

**Venue-Derabis Degree College, Derabish, Kendrapara.**

**About the College:**

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a College in such a remote and underdeveloped area like Derabish with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals. Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

**Mission and Vision**

To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.

To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.

To imbibe scientific temperament with human values in the minds, for the upliftment of men and women.

To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the Nation's mainstream.

The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

  
Principal  
DERABISH COLLEGE

**The objective of the Seminar is likely:**

1. To develop a skill to stimulate experience in the taught.
2. To develop a capacity to do, observe, infer and to generalize.
3. To enhance enjoyment in learning.
4. To identify individual talents.
5. To guide students in developing critical thinking and problem solving skills.

## ABSTRACT

### ROLE OF TEACHER EDUCATION AT SECONDARY LEVEL

DATE- 16.04.2022

Teachers at the Secondary level play a crucial role in shaping students' academic and personal development. They not only impart subject knowledge but also guide students in developing critical thinking, problem solving skills and strong work ethics. Additionally, teachers serve as mentors, offering support and encouragement during a pivotal stage of adolescent growth. Their ability to create a positive learning environment and foster a passion for learning can significantly influence students' future success. The role of teachers in Secondary Education is multiphase and pivotal in shaping the academic, personal and social development of students during a crucial phase of their lives. They play a key role in cultivating critical thinking skills fostering a love for learning and providing guidance on academic and carrier pathways. Additionally teachers contribute to the emotional well-being of students' in values and promote essential like skills.

**A seminar on "Sustainable Development: An Approach to Quality of Life"**

**Date:** 16.04.2022

**Venue:** Hall No. 14, Derabis College,

Derabis, Kendrapara.

**About the College:**

Each and every institution has its own history. The history of Derabis College dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a College in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals. Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

**Mission and Vision:**

To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.

To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society. To imbibe scientific temperament with human values in the minds, for the upliftment of men and women. To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the Nation's mainstream. The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

**The objective of the seminar:** To explore how sustainable development practices can enhance the quality of life by balancing economic growth, environmental preservation, and social well-being. To identify and recommend strategies for implementing sustainable development in various sectors to achieve long-term benefits.

## Sustainable development and approach of quality of life

### **Abstract:**

Development will grant people with a new form of living security and hope. Besides, one of the major objectives for development is to ensure that the society who lives will experience a good quality of life by managing to fulfil the human needs. There are two central needs by inhabitants'; first, the biological needs that are essential to the survival of the society and second, cultural requirements that are necessary for the functioning and growth of the residents of the development area. In order to fulfil the human needs, development has become an important tool to deliver the requirement of the society. However, intense development generates many demands on natural environment. Development is often cited as one of the major agent that has led to the transformation of the four main components of the natural environment -- land, water, air and biological aspects. Besides, developments often embark on a chain of result of environmental systems disruptions and ecological damage. In addition, if these requirements of human needs cannot be fulfilled or is below the minimum input, this situation tends to lead to the vulnerability of the society. Conflict between human needs and environmental sustainability has guided many authorities to engage sustainable development concept for the development planning. The concept of sustainable development was described by the 1987 Bruntland Commission Report as "development that meets the needs of the present without compromising the ability of future generations to meet their own needs." Sustainable development is regarded as understanding the strength and links among the human needs and the environment. Improving quality of life of the society is the key for sustainable development. Thus, in order to improve quality of life appreciating the potential of development area such as improves land utilization; efficient use of resources as well as creating more opportunities to the society will be the catalyst to achieve sustainable development

## DEPARTMENTAL SEMINAR-2021-22

1. TITLE OF THE SEMINAR-IMPACT OF BUDDHISM ON ASOKAN DHAMMA
2. ORGANISER-DEPARTMENT OF HISTORY
3. DATE-19.04.22
4. VENUE-DEPT. OF HISTORY, DERABIS COLLEGE, KENDRAPARA
5. BRIEF INTRODUCTION OF THE RESOURCE PERSON-

Mr. Tapan Kumar Pati former head of the department of history from Kendrapara Auto College attended the seminar as resource person. He has vast teaching experience and published extensively national and international level journals.

## 6. BRIEF REPORT ON THE SEMINAR-

A departmental seminar was organized by the department of History on dated 19.04.22 on "IMPACT OF BUDDHISM ON ASOKAN DHAMMA". Mr Tapan Kumar Pati invited as a resource person and deliberate about the topic that Ashoka has been identified in the World history as one of the greatest ruler who not only gave breathing space to the relics of Buddhism but unconditionally raised the establishment of various Buddhist sites in many parts of the subcontinent. This builds up the statement that Ashoka build up these sites to set a mark as an devout upasaka. We get various proclaims of his faith in Buddhism in numerous edicts and inscriptions. Like in minor Rock Edict 1 he speaks "A little over two and a half years he passed since I have avowedly become a Sakya [a lay follower of the Buddha]. It's now more than a year since the Sangha has been intimately associated with me and I have been exerting myself in the cause of the Dharma. The seminar was presided over by the Dr. Debabrata Nayak, Principal –in-charge. Mr Nagendranath Pani, HOD HISTORY main brain behind this programme. At the end Rudrangi Pattanaik , Lecturer in History extended vote of thanks to all distinguished dignitaries and students. The Seminar has benefited to the students, staffs and faculty members of the college.

DERABISH COLLEGE

## Abstract:

Ashoka has been identified in the World history as one of the greatest ruler who not only gave breathing space to the relics of Buddhism but unconditionally raised the establishment of various Buddhist sites in many parts of the subcontinent. This builds up the statement that Ashoka build up these sites to set a mark as an devout upasaka. We get various proclaims of his faith in Buddhism in numerous edicts and inscriptions. Like in minor Rock Edict 1 he speaks "A little over two and a half years he passed since I have avowedly become a Sakya [a lay follower of the Buddha]. It's now more than a year since the Sangha has been intimately associated with me and I have been exerting myself in the cause of the Dharma. It was overwhelming to observe that Ashoka had a close proximity to Buddhism and inscriptions decipher this truth. In the inscriptions, Ashoka was called as Devanampiyapiyadassi raja, the beloved of the Gods. Ashoka in seldom note used his personal name whereas in general he referred himself by the above little on comparative basis with the Buddhist chronicles of Ceylon. This was done with a deliberate attempt to sanctify his name and portion among the masses. The edicts of his time justifies him as a Buddhist and Buddhist sources from Ceylon, Tibet and China contains detailed accounts of the life of Ashoka. We get numerous instances from his 3rd, 4th, 11th Rock edicts and 7th pillar edicts where he specially talks about promoting kindness towards animal lives. In his Rock edicts he gives very specific commands not to slaughter living creatures for serving sacrifices. In these Rock edicts he further talks about that "how Hundreds-Thousands of living beings have been slaughtered everyday in the kitchen for curry; though only three living creatures were killed daily for curry and they were two birds and one animal. This practice was questioned elaboratively and stoppage to it was necessitated to serve in future". Ashoka reiterated the notion that only by adopting conquest by the Dhamma one can foster the belief of non-violence. The other important tenets of his Dhamma policy weretoleration which was very much visible from his actions and behaviour with other religious. It was in this pretext, he extended his Royal Patronage to all sects whether it was a grant to Ajivikas or Buddhist and so on. We get illuminations of this principle from 7th Rock Edict and 12th Rock Edicts. This illumination has been rightly stated by RomilaThapar as well. She states it as the principle of toleration was not about passive co-existence but as a frame of active mind which opens gates for further discussions but puts a figure on any kind of offence." AshokasDhamma policies had deep impact on it from the ritualistic side of Buddhism which has close associationwith the images of popular cults such as Tree-Worship and fertility cults to develop close association in daily lives. This shows that principle of Dhamma were acceptable to all and welcoming for all sections of the society. Ashokas Dhamma policy was not only a religious policy but a policy of moral and social code of conduct. This policy comprised a code of duties, charter of civic virtues and social morality.

## Resolution - 12.

Dt. 02.04.22

### Meeting.

A meeting of History dept. was held on dt. 02.04.2022 in the office of principal Dr. Debabrata Nayak, Principal presided over the meeting in the presence of dept. staff and students. The following decisions were taken unanimously.

1. It was decided to organise a seminar on 19.04.2022 at 10:30 am in the dept. positively.
2. Topic of the seminar -  
"Impact of Buddhism on Ashokan Dhamma"
3. It was decided to request Prof. Tapan Kumar Pati, former H.O.D, History Kendrapada Auto College, Kendrapada to attend as resource person.
4. Mr. Nagendranath Pani, H.O.D ; History shall act as convener of the seminar (and) authorised to withdraw the needed amount after submission of the voucher.
5. The meeting ended with vote of thanks to the members present and presided.

A SEMINAR ON  
**UV – VISIBLE SPECTROSCOPY**

**DATE- 11.03.2022**

**Venue-DERABIS DEGREE COLLEGE, DERABISH, KENDRAPARA.**

**ABOUT THE COLLEGE:**

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a College in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals. Location of the College is quite convenient. Situated at the heart of Derabis, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

**MISSION AND VISION:**

To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.

To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.

To imbibe scientific temperament with human values in the minds, for the upliftment of men and women.

To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the Nation's mainstream.

The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

DEPARTMENT OF CHEMISTRY

1. Seminar held on : 11.09.2022
2. Name of Topic : UV-VIS Spectroscopy
3. Name of Resource Person : Dr. Dillip Kumar Baral,  
Lecturer in Chemistry,  
Christ College
4. Number of Participants : 30
5. Abstract of the Paper : Ultraviolet-visible spectroscopy is one of the analytical and characterisation techniques. There is a linear relationship between absorbance and absorber concentration. The UV-VIS spectral range is approximately 190-900 nm. UV and visible photons are energetic enough to promote electrons to higher energy states in the molecules and materials. It is useful for the exploration of the electronic properties of materials.
