

STUDENTS MENTORING PROGRAMME

DEPARTMENT OF ZOOLOGY

DERABIS COLLEGE, DERABIS

SESSION- 2024-25

Introduction

Mentorship is considered an essential component. Mentoring is *'A professional relationship in which an experienced person (the mentor) assists another (the mentee) in developing specific skills and knowledge that will enhance the mentee's academic and personal growth.'*

Objectives

- To provide support and guidance for teaching and learning.
- Foster open, honest, and regular communication.
- Demonstrate respect for each other's time, expertise, and perspective.
- Encourage constructive feedback and reflection.
- Align mentorship goals with the mentee's aspirations.

Duties of Mentor

- The mentor will help the mentees to get the study material, and reference books and most importantly help them to build networking in the college campus.
- He/She will help the students feel comfortable and homely so that they can freely share their issues.
- He/She can take the help of higher authorities if needed, to mitigate the issues.
- He/She will meet the mentee in a group or person once every month.
- At the end of every term the mentor will evaluate the progress of the mentee and take necessary actions for further growth.
- Keeping an interest in the mentee's progress and taking appropriate approaches for the betterment of the mentee.

Duties of Mentee

- Responsible for his/her development rather than expecting sole help from his/her mentor.
- Committed to attending the planned sessions and taking the actions suggested by the mentor.
- Punctual and transparent in behaviour with his/her mentor.
- Share his/her ideas and goals with the mentor and carry out necessary actions suggested by his/her mentor.
- Be receptive to suggestions and feedback and keep the mentor informed of progress.
- Realize that having a mentor is a privilege, contact a mentor, and work hard to take advantage of the opportunity.

STRATEGIES UNDERTAKEN FOR THEIR ACADEMIC GROWTH

- provide individualized tutoring outside class hours.
- Take supplementary classes focusing on basic concepts to clear their doubts.
- Providing them extra time for completion of assignments.
- Regular doubt-clear classes and chapter-wise question-answer discussions.
- Monthly test examinations.
- Arranging guest lecturers to keep them motivated.
- Providing online study material for better understanding.
- Counselling them personally in preparation for the exam.
- Providing supplementary material and guiding for note-taking.
- Revision of the previous topic before going to the new one.
- Utilization of platforms like Google Classroom, Zoom, multimedia, and pictorial representation.
- Suggesting them to go through textbooks and reference books while preparing notes.
- Giving regular assignments to them.
- Counselling them about future academic growth in the field of zoology.
- Advising them to join online lecture series and seminars.
- Arranging group discussions among them.
- Preparing them for monthly paper presentations.
- Making them competent for entrance examination by chapter-wise MCQ practice.
- Increasing their writing and reading habits through class tests and homework.
- Encourage them to tutor less advanced students that deepen their knowledge.
- Encouraging them to attend seminars, and workshops and to interact with professionals.
- Motivating them to go for higher studies in zoology.
