## 2. RELEVANCE OF THE SUBJECT

Relevance education refers to the appropriateness of students learning opportunities relevant education takes into account local traditions and institutions, positive cultural practices belief systems and the needs of the community it helps a student to get knowledge and improves confidence in life. It can help the students to improve their carrier any personal growth. An educated person can become a great citizen in society. It helps the student to take the right decisions in life.

Modern education develops the sense of learning essential life skills, analytic competencies, decision -making skills and critical thinking. A good education is not only teaches students' skill but also help students broaden horizons, gain better perspective and teachers student to think for themselves. People today are quite aware and comfortable speaking about social injustices and other pressing issues.

This can be attributed to the increased access to education around the world, which in turn has made society more accepting and open-minded. Therefore, education is an element of human evolution. The importance of education is also pronounced in the areas of creativity and innovation. Education encourages thinking outside the box and experimenting with new ideas.

Education plays a vital role in the progress and prosperity of the nation. The entire education system has to create centre of academic excellence with strong scientific and technical man power. Quality education acts as a tool for attaining social and economic development which prepare the youth capable of meeting the challenges in their careers as well as in their life. Good quality education has the power to inculcate necessary skills and bring change in the community. It has the power to impact individuals, communities and future generations.

The strength of an educational system depends upon the quality of its teachers, teaching and learning situation. In an educational institution, the qualified and expert teachers are most important determent of the quality of education. A passionately committed teacher can contribute better for all-round development of his students in particular. In the present era of globalization, liberalization and privatization, the quality education is needed for

whole education system. So education is an important factor of the society, family, state and nation.

The profile of the Dept of Education is a humble documentation of academic excellence, achievement and activities organized time to time by the Dept. of Education, Derabis College, Derabis, Kendrapara. The profile peeps into the past performance, brings into focus the present status of the dept and constructive future highlighting the quality the quality, development and innovations.
